RIVER DES PERES RAGES

The Best Pens Made

THROUGH FAIR GROUNDS.

Floods Forest Park, but Does No Se rious Damage on Exposition Site.

Sluggish little River des Peres, which erdinarily meanders along its way in a alow and seemingly purposeless manner, was on the rampage yesterday, the heavy rains having metamorphosed it into an ambitious river that thundered and boomed through its channel with a current as swift as a millrace.

The violence of the erratic little stream which in Forest Park broke from its

The violence of the erratic little stream, which in Forest Park broke from its crooked channel and flooded all the bottoms of the park from the part east of the Mounted District Station clear to the Blair monument, caused some apprehension for the sefety of the World's Fair grounds and buildings.

Park Commissioner Aull last night telephoned Chief Engineer Fhillips to inquire whether the stream had done any damage within the Fair site. None was inflicted by the stream, however, as its wooden box through which it flows through the Fair site held it fast. Mr. Phillips said that before the conduit was built the ravages of floods were carefully considered and every provision made for the state of the right at such times. The wooded conduit which confines the River des Peres within the Fair grounds is 15 feet deep by 40 feet wide. It is built to stand a 12-foot stage of water in the river with perfect safety, and last night at 6 o'clock a gage of the river taken at a point near the Press building showed but a 6-foot stage.

The only danger, Mr. Phillips stated, would be from the accumulation of drift in the conduit, which would have the effect of backing the water in the river channel and flooding the entire Fair grounds and Park. This was guarded against yesterday by stationing men at the sentrance of the conduit to remove all drift in the stream.

The flooding of the Forest Park bottoms was thought by some to be due to a defect in the Fair conduit, but Mr. Phillips stated that it was due to the crooked course of the river in the park and to the poor outlet for the stream.

Beyond the washing out of ballast at crossings on the Intramural and World's Fair terminal tracks the heavy rains did no damage at the Fair. Some of the buildings leaked badly yesterday during the downpour, but this was expected because of their temporary character.

EXECUTIVES AT PRESS PARLIAMENT Governors of Commonwealths Will Come With the Editors to the Fair. Invitations to the Press Parliament next

May at the World's Fair have been accepted by thirty-three State and Territorial Press Associations, with many others to be heard from, Governors from several States will accompany the press associations of their respective States.

Among the chief executives of States who will come to St. Louis on that occasion are Governor Vardeman of Mississippi, Governor W. J. Bailey of Kansas and Governor A. B. White of West Virginia Governor A. B. White of West Virginia Governor A. B.

ginia.

Henry Watterson and Charles Emory Smith and Edward M. Bok will be among Smith and Edward M. Eok will be among the editors on the programme of the National Editorial Association. P. V. Collins, president of the National Editorial Association, estimates that an attnedance of some 700 delegates, representing every State and Territory in the Union, will be sent by the association.

Ernest Kesztheiyi, a journalist of Buda-Peath, Hungary, writes that five members of the press of that city will attend the parliament.

BOILER INSPECTOR APPOINTED. Ferris Wheel Will Pay \$36 Weekly

for Inspection.
The Ferris Wheel must produce a rev enue of \$36 per week for the city of St. Louis. Each of its thirty-six cars has been declared subject to the elevator inspection of the city, and all elevators on the World's W. A. Vincent was yesterday appointed Assistant Inspector of Bollers and Ele-vators, and from this time on will devote his entire time to the World's Fair.

Clara and Carl Stuckmann. After a brief liness, at the age of st years. Funeral services at the family residence. No. 1750 Elliot avenue, on Monday. March E. at 1:30 p. m. Relatives and friends are invited to attend.

WAGONER UNDERTAKING CO., 1127 OLIVE ST. Day or Night.

POLICEMEN ARE

Chief Gillaspy Orders Their Suspension Pending Trial in Court of Criminal Correction.

NEGLECT OF DUTY CHARGED.

True Bills Against John J. Lavin, Timothy Lavin and James Holmes Allege Intimidation of Voters.

The three Sergeants and eleven policenen who were indicted yesterday by the Grand Jury, which also returned true bills against John J. and Timothy Lavin and James Holmes, as a result of the Demo-cratic primary outrages, will be suspended by Chief Gillaspy this morning after they have given bonds in the Court of Criminal Correction

The charge against each of the police men is neglect of duty. Eight of them were indicted a week ago and were discharged in the Court of Criminal Correction Thursday, when Judge Moore sus-tained the demurrer filed by their counsel. The indicted men are: Sergeants Patrick Kirk and Harry Dorsey of the Mounted District, Sergeant James Berry of the Eighth District, Patrolmen Morris Devine, Frank Kraemer, John O'Connor and William Dillon, Mounted District, and Patrolmen Timothy Flynn, Timothy Sullivan, John Mohr, Frank Nally, M. Carbray, Andrew Aylward and F. L. Wood.

The indictments charge that the policemen neglected their duty in failing to protect voters from intimidation by John J. Lavin, Timothy Lavin and James Holmes, the latter a precinct committeeman of the Twenty-eighth Ward. The indictments Twenty-eighth Ward. The indictments against the Lavins and Holmes charge them with intimidation of voters.

The indictments are said to cover the points declared defective by Judge Moore. They set forth the names of the persons intimidated and give the names of persons whom the policemen are said to have neglected to profect.

Against Sergeant Kirk the State's witnesses are William Baggott, No. 1994 Chestnut street; John P. Leahy, Houser building, and Edward Cunningham, Wainweight building.

On the indictments against Sergeant Dorsey, John and Tim Lavin and Holmes appear the names of the following witnesses:

Dorsey, John and Tim Lavin and Holmes appear the names of the following witresses:

Daniel L. Hatton, Olive street and Boyle avenue: D. A. Jamison, Given Campbell, David Carlisle and Judge C. F. Shaitz of No. 593 McPherson avenue.

As witnesses against Sergeant Berry and his Eighth District squad, who were indicted a week ago. J. D. Perry, David P. Francia Jr. J. W. Fristoe, Edward Cunningham, J. J. Corkery, J. B. McCormack, W. K. Kavenaugh, William A. Dillon, Doctor G. W. Broome, T. H. Garrett, H. T. Force, Arthur B. Barrett, T. R. Bland, T. M. Harding, P. D. Banning, W. B. Harrison and Willard R. Hall.

Sergeant Berry was at the head of the detail of police at the polling place at Delmar and Taylor avenues, where so many citizens were pushed from the line, assaulted and prevented from toting by "Indians," who, it is alleged, worked under orders from John Lavin.

Sergeant Dorsey and his squad were at the Arcade polling place and Sergeant Kirk, with a detail, was on duty at Easton and Marcus avenues, at each of which polling places the same outrageous treatment was afforded reputable business men and citizens who desired to cast their votes, but were prevented from doing so by the "Indians."

Secretary Ward of the Board of Police Commissioners said yesterday that no matter what the result of the cases against the Sergeants and patrolmen in court may be, they will be tried by the board on charges of neglecting their duty. It is believed that the policemen and the two Lavins will have as sureties the same men who signed their bonds in each case.

day. The bonds will be \$300 in each case...

DR. MITCHNER FOUND DEAD. Former St. Louis Physician Discovered in His Office.

REPUBLIC SPECIAL. Guthrie, Ok., March 25.-Doctor W. P. O. Mitchner, formerly of St. Louis, Mo., who has lived here for the past two years, was found dead in his office rooms at a late hour last night.

A Coroner's Jury to-day returned a verdict finding that the cause of death was heart fallure. It is said he had amassed quite a fortune since coming here. He is reported to have been a graduate of the Rush Medical College. He was 25 years

Cotton Manufacture Exhibit.

EDUCATORS MAKE FAIR PROGRAMME.

Booker T. Washington on List of Speakers at National Educational Association Meeting.

Howard J. Rogers, Chief of the Department of Education of the World's Fair and Director of International Congresses, has received from Irwin Shepard, secretary of the National Educational Association, the preliminary programme of the exercises to be held under the auspices of the association at the Exposition this coming summer,

It is expected that the various State headquarters of the delegates in attend-ance at the convention will be in their respective State buildings on the World's Fair grounds. Nearly all of these State pavilions are located on the Plateau of States, near the Inside Inn. which will be general headquarters of the convention. Pollowing is the preliminary programme submitted by the secretary of the asso-

CAPT. JOHNSON TO COMMAND FILIPINO SCOUTS AT FAIR.

Cantain Welsh Detailed to Report for Duty With Jefferson Guards -Army Orders.

Captains William H. Johnson and William E. Welsh have been added to the number of army officers who will be stationed in this city during the World's Fair, according to army orders issued yesterday at Washington, D. C. The former has been ordered to relieve Major Frank de L. Carrington, First Infantry, of the command of the battalion of Philippine couts now at San Francisco.

Captain Welsh of the Thirtieth Infantry

president of the Federation of Day Nurseries, has issued a statement in regard to her connection with the abandoned Model Day Nursery projected by the Board of Lady Managers. Mrs. Dodge says she feels impelled to make this statement in justice

to herself:

When the original appropriation of \$35,000 was requested from the Exposition for a day nursery building it was expected that this amount would cover the expense of the building and furnishings. The first plan which she submitted to President Prancis and the local board was to accommodate 200 children. It was shown that the expense of this building would be greater than the whole appropriation, so the plan was cut down to accommodate 150 children, and it was supposed at the time that the smaller building would cost about \$10,000, feaving \$5,000 for furnishings and other expenses.

Last month, when bids were received, it was found that the cost of this building would be over 53,900, and, knowing that the Board of Lady Managers had just received an appropriation from Congress, she says she made an application, through the chairman of the Day Nursery Committee, Miss Gould, for \$5,500 to cover the cost of furnishings and rooms for the staff.

Nursery Committee, Miss Gould, for \$2.00 to cover the cost of furnishings and rooms for the staff.

The only time when any larger sum was mentioned was when she suggested to the Board of Lady Managers that E cents a day be charged for each child, the price at the Chicago Exposition, as a larger sum would be beyond the means of many women bringing children to the Exposition. In this case about \$2.700 additional would be needed to cover the salaries of the 'taff. If this had been appropriated the entire sum needed would have been about \$2.200. At no time, directly or indirectly, she states, did she mention any larger amount.

NOVEL PROGRAMME FOR "OKLAHOMA DAY."

Sixteen Young Ladies Will Celebrate Territory's Sixteenth Birthday at Fair September 5.

Washington, March 25.-G. L. Rockweil of Oklahoma City, here arranging plans for commemorating the sixteenth anni-versary of Oklahoma's birth as a Territory, has a unique plan for making that occasion memorable September 5 at the

the Exposition Company by which that day had been set aside for a fitting celebration. The day will be known as "Oklahoma City Day." "Okiahoma City," said Mr. Rockwell, "Is the largest and greatest city in the world for its years, with \$5,000 people, sixteen miles of paved streets and twenty miles of street-car track—a growth here unprecedented. Oklahoma City, in the near future, will be the St. Louis of the Southwest."

President Rooseveit declared that he was delighted to hear of the novel programme outlined by the delegation and expressed the hope that it be a great success. Relative to the visit of Miss Rooseveit to St. Louis, he at first discouraged his visitors, but added that he would be glad to extend the invitation to his daughter.

BACK PAY FOR JEFFERSON GUARDS Five Retired Noncommissioned Offeers of the Regular Army in Luck. Five Jefferson Guards, veterans of the United States Army, rejoiced yesterday at the news that Uncle Sam will present them with a sum aggregating \$2,000, and give each of them \$13.50 a month for the

est of their lives.

reat of their lives.

This action is the result of a decision of the United States Supreme Court, just announced yesterday, in the case of Joseph Sudaberger, a retired ordnance Sergeant, which decision is said to affect about 200 retired noncommissioned officers now on the retired list.

All of the five guards are on the retired list of noncommissioned officers of the regular army and are now on three-quarters pay. They are Sergeants E. Andres, H. Donaldson, A. Wittelmeyer and H. O'Biefn and Private B. Odden. By the special decision each man should receive three-quarters of the 318 allowance for food and quarters for noncommissioned officers, amounting to \$13.59. Each man will receive nearly \$400 in back pay for the time since his retirement.

WYOMING WILL EXHIBIT TONS OF PRECIOUS ORE.

ommissioners Are Installing the Products of the State in the Mines and Agriculture Departments,

C. B. Richardson, Commissioner in Chief and W. C. Deming, secretary of the Wyoming State Commission, are at the World's Fair to install the Wyoming ex-

hibit. culture buildings will be the bulk of the exhibit, and the products of the irrigated fields and mines of the State will be shown in large quantities.

Six thousand pounds of soda cut from Soda Lake, in Albany County, will be one of the most interesting objects in the Mines Department. This is believed to be the largest single piece of soda that has ever been shown, and if made into soap of half-pound bars, it would suffice to do the washing of a small family for 2,400 years, approximately. approximately.

Ine single block of cosl, a 7-foot cube, will be used as the base of a step pyramid, showing every grade of bituminous coal fuel in the State. The two lower blocks of the pyramidl weigh 42,000 pounds. With the coal will be shown 300 s mples of various grades of crude petroleum, ranging from the lightest colored cil that has ever been pumped from a well in the United States to some that are almost black.

in the United States to some that are almost black.

CCLPFF ore will be exhibited by the Hecla Copper Company from the Silver Crown mine, in a tower composed of 20,000 pounds of the high-grade ore. Near this will stand a tower of red hematite from ore, which is said to be nearer pure than any other ore. This will be shown in a 40,000-pound tower, for which the installation and the spilings under the floor have been put in place.

Gold quarts will be exhibited in specimens so rich that they will be placed in a safe every night. With this will be shown a large exhibit of placer gold in grains and nuggets as it was washed out of the auriferous grave!

In Agriculture, the State will disprove

60 ASTHMA To stay Cured, Cause removed. Health restored, No more Asthma or Hay Fever. Book 87 free, write P. HAROLD HAYES. Buffalo, N. Y.

reports that have been circulated of its barrenness. Products of irrigated fields to the number of several hundred varie-ties of cereals, grains, grasses and fruits will be shown, some of which were grown at an altitude of \$,000 feet above the sea

at an altitude of a,00 feet above the seal level.

In Forestry, Fish and Game, mounted specimens of elk, buffalo, moose and mountain sheep will be arranged about the ullotted space, and near them will be an exposition of the State's resources in forestry. Every variety of wood, suitably prepared, to show the natural and poished grain, will be exhibited.

A notable feature of the Wyoming exhibit will be colored photographs, 40x39 inches, arranged about the walls of the various departments. These will picture the topography of the State in the agricultural and mining sections. They will cover 200 feet of wall space, illustrating the landscape of Wyoming.

Plant Map to Be Started. Work on the planting of the differen

staples that will mark the States in the great plant map of the United States just west of the Palace of Fish, Forestry and Game will begin as soon as all danger of frost is passed, according to W. J. Spillman, agrostologist of the Bureau of Plant Industry, which is installing the map. Mr. Spillman arrived in the city vesterday to inspect work on the map which is now under way. One week before the opening of the Exposition, Mr. Spillman-says, the wire mesh fence which new surrounds the map will be removed and gravel walks laid to mark the State lines. Each State in the map, as well as the plants, will be labeled. great plant map of the United States just

Argentine Exhibits Coming.
